

Information for NURS8823 CaFHN students

South Australian placements

SA students will be assisted to secure some placements within SA Health. Your name will be provided to SA Health after [the last day to enrol](#), and you can expect further contact from SA Health after this date. **Please ensure that your WIL support officer (contact details below) is aware that you wish to be included before the [last day to enrol](#), including students from interstate.**

Please do not approach the SA Health team independently – the above process is their preferred method of managing placements.

SA Health will create the roster for placements within SA health. Opportunities will be dependant on availability and with consideration to the the address listed in your InPlace profile. Please keep that updated.

For more information on the services offered by **Women’s and Children’s Health Network SA** available here: www.cyh.com

Placements can be undertaken with hosts outside of SA Health, with other non-Government organisations (such as Indigenous health services). Please approach them independently to enquire about placement opportunities.

A Placement Schedule or Student Placement Letter of Agreement must be in place for each venue you wish to complete your placement with. This will be completed by your Flinders University WIL support officer once you have provided the contact details and evidence of the organisations willing to host you.

Placements cannot commence without the appropriate agreements in place.

Placements can be undertaken outside of SA. Please refer to the relevant fact-sheets by state, if you require them. Please note that you may have additional pre-placement requirements for each state and venue that you choose.

Considerations for a reduction in placements, changes to the structure of placements to be undertaken or earlier commencement dates **need to be negotiated** with the topic coordinator.

Please ensure you keep your contact information current in the Student Information System, **including your best contact number, and semester-long residential address.**

You can check and update your information via the **Student Information System tile on OKTA**. If you need help with that, you will also find IT Support on OKTA.

[Please refer to our website](#) for **guidance on preparing your uniform, name badge, the Placement Reimbursement Policy** and other general placement related information.
