

**Victorian placements**

Please be aware that VIC Health venues have placement agreements with other Universities which may prohibit them from taking students from Flinders University. Community-based organisations (such as Indigenous health or other non-government services) do not seem to have as many restrictions, so this might be a good place to start to negotiate your placements.

A **Placement Schedule or Student Placement Letter of Agreement** must be in place for each venue you wish to complete your placement with. This will be completed by your Flinders University WIL support officer once you have provided the contact details and evidence of the organisations willing to host you.

**Placements cannot commence without the appropriate agreements in place.**

**Placements can be undertaken outside of VIC. Please refer to the relevant fact-sheets by state, if you require them.** Please note that you may have additional pre-placement requirements for each state and venue that you choose.

**Considerations for a reduction in placements** based on prior experience, changes to the structure of placements to be undertaken or earlier commencement dates **need to be negotiated** with the topic coordinator.

**Please ensure you keep your contact information current** in the Student Information System, **including your best contact number, and semester-long residential address.**

You can check and update your information via the Student Information System tile on OKTA. If you need help with that, you will also find IT Support on OKTA.

**[Please refer to our website](#) for guidance on preparing your uniform, name badge, the Placement Reimbursement Policy and other general placement related information.**
