

## Information for NURS8823 CaFHN students

### Northern Territory placements

There are no CaFH residential services in the NT, so **interstate travel will be required** to complete a 3 day residential placement. Options to undertake the required residential placement include travelling to the Ellen Barron Family Centre in QLD, Torrens House in SA, or Ngala in WA. Please refer to the fact sheet by state for more information. Alternatively, select one of the other Specialised Services Placement options in your local area.

Placements can be undertaken with hosts outside of NT Health, with other non-Government organisations (such as Indigenous health services). Please approach them independently to enquire about placement opportunities.

**A Placement Schedule or Student Placement Letter of Agreement** must be in place for each venue you wish to complete your placement with. This will be completed by your Flinders University WIL support officer once you have provided the contact details and evidence of the organisations willing to host you.

**Placements cannot commence without the appropriate agreements in place.**

**Placements can be undertaken outside of NT. Please refer to the relevant fact-sheets by state, if you require them.** Please note that you may have additional pre-placement requirements for each state and venue that you choose.

**Considerations for a reduction in placements**, changes to the structure of placements to be undertaken or earlier commencement dates **need to be negotiated** with the topic coordinator.

**Please ensure you keep your contact information current** in the Student Information System, including your best contact number, and semester-long residential address.

You can check and update your information via the Student Information System tile on OKTA. If you need help with that, you will also find IT Support on OKTA.

**Please refer to our [website](#) for guidance on preparing your uniform, name badge, the Placement Reimbursement policy** and other general placement related information.
