

## Sunrise EMR (previously EPAS) Training for SA Health Placements

Flinders University provides students with Sunrise EMR training via online modules in FLO.

- This training is designed to be self-paced and should take less than two hours to complete.
- Students *must* complete the training *at least* 6 weeks prior to their placement for access to be actioned in time for the first day of placement.

Access to the Sunrise EMR online modules is via your FLO home page, in the Additional tab. They are updated each calendar year.

The EPSW WIL team will email students a link to the FLO modules in early January. Once received you will need to click on the link and self-enrol into the topic by using your Flinders Authentication Number (FAN).

Once enrolled, you will find 3 online modules that include lessons and assessment tasks throughout. Once you have successfully completed all the modules and passed the assessment items, you will need to take a screenshot of your pass mark (which will be 80%>) and your name and **upload it** under the Additional Compliance – SA Health Placements on InPlace.
