

Placement compliance requirements are an industry pre-requisite for all students and health professionals prior to entering any health facility. Students will not be allocated a placement until all compliance criteria are completed and provided to the College of Medicine and Public Health.

Students are responsible to:

- Allow adequate time to complete all pre-placement requirements:
 - Criminal History screenings (DHS clearances, interstate equivalent clearances, Police Checks) may take 6-8 weeks.
 - Vaccinations may interfere with tuberculosis test results; therefore, it is strongly recommended to complete the Tuberculosis Service screening *before* commencing any vaccinations.
- All documents must be valid for the entire duration of your placement. Clearances and certificates have expiry dates as noted below and must be renewed prior to placement allocation.
- Keep all ORIGINAL documents safe and secure in a placement folder which is taken to all placements. – any site can ask to view them at any time.
- Upload all required documents via InPlace. Consult the [InPlace User Guide](#) for help.
- Ensure address details and emergency contact details are correct and updated on Student Systems, when required.
- Complete any additional venue specific compliance requirements, if requested.

Further information can be found on our [website](#).
