Mission & Vision

The Fulbright Commission promotes educational and cultural exchange between Australia and the United States in order to enhance mutual understanding and strengthen relations between the two countries.

As the leading scholarship program between Australia and the United States, the Fulbright name is synonymous with academic excellence, thought leadership and mutual understanding, and reflects the uniquely deep bilateral relationship.

History

- ▶ Established in 1946 by U.S. Senator J. William Fulbright and the U.S. Government
- ▶ Ethos of ‘swords into ploughshares’ – surplus WWII materials sold to fund two-way academic exchanges to the U.S.
- ▶ Has grown to be the largest education scholarship program in the world, operating between the U.S. and 160 countries
- ▶ Over 5,000 alumni of the Australian-American Fulbright program since establishment in 1949

International educational exchange is the most significant current project, designed to continue the process of humanizing mankind to the point that we can learn to live in peace
